

Community Service Hours Report

Unity Christian School is pleased to include the total number of hours spent performing community service each year of high school on your official transcript if you complete this form for each community service activity. If the activity is one that you do on a regular basis, you may include several on one sheet, but you must include hours and date of service for each occurrence. UCS will award service cords to select graduating seniors who complete the most service hours throughout their high school career. These hours must be completed and turned in by March 31 of your graduation year in order to be included.

Student Name: _____
